

IMPORTANT NOTICE: The booth, the heater and extraction system must be assembled under shelter. Concrete ground must be level and flat below the booth, heater, extraction and door access. All the pits should be perfectly water proof.

- SUPPLY AND WORKS NOT INCLUDED:**
- Drilling and sealing at passage of ducts.
 - Supply and connection of power to the control board.
 - Equipment of spraying station.
 - Earthing of installation.
 - Supply and connection of fuel to the heater.
- The civil engineering drawing should be carefully respected.
 -If the stated measurements are not respected, correct assembling and running of the installation cannot be guaranteed. Costs involved by modifications or wasted time will be charged to the customer.

ALL MEASUREMENTS ARE INDICATED IN MILLIMETRES
